NEWS OF THE SOUTH SIDE

EXTENSIVE PAVEMENT ON SOUTH SIDE IN 1912

Only fourteen blocks of paved streets before amalgamation. But now soon to have a hundred blocks of asphalt on the South Side.

Amalgamation year will on the South Side be celebrated in a permanent improvement in the paving of streets. The extensive paving improvements on the South Side of the city of Edmonton. Citizens recall the unpleasant memories of the days when they lived on the only paved street that led through their mud down to the ferry.

Fourteen blocks of this pavement. Before amalgamation of the cities of Strathcona and Edmonton there were already paved on the South Side in the years 1909, 1910 and 1911 the following street:

White avenue, from Fourth street West, nine blocks.
First street East, from First avenue North to First avenue South, two blocks.
First street East, from First avenue North to First avenue South, two blocks.
First avenue North, from First street East to Main street, one block.
Thus before amalgamation there were only fourteen blocks of paved streets on the South Side of the city of Edmonton.

Second avenue North, from Main street to Third street West, three blocks.
Second avenue North, from Main street to Third street West, three blocks.
First street West, from First avenue South to Second avenue North, three blocks.
Third street West, from First avenue South to Second avenue North, three blocks.

Third street East, from White avenue to Saskatchewan avenue, seven blocks.
Fourth street East, from White avenue to Saskatchewan avenue, seven blocks.

Curb and Gutter Sub-Contract. The Western Paving, Limited, Winnipeg, are making good progress on their sub-contract for curb and gutter, and have about 250,000 feet of curb already constructed on the following streets:

Main street, from Third avenue to University avenue.
Main street, from First avenue North to Second avenue North.
First avenue South, from Main street to First street East.
Third street East, from White avenue to Saskatchewan avenue.
Fourth street East, from White avenue to Saskatchewan avenue.

First avenue North, from Second street East to Fifth street East.
First street East, from Third street East to the city limit.

Thus before amalgamation the city and the city council decided to improve the muddy condition of the streets. According to financial and contract arrangements made before the old municipality ceased to exist. The old council desired credit for the extensive paving contract. The contract was let to two companies, the Hulse and Contracting Limited and the National Paving and Contracting Company Limited. The first company has since been part of their contract to the Western Paving.

Limited Plans of Hulse. The Hulse and Contracting Limited, have a large contract for paving on the South side, to be completed by this fall. They have submitted their curb and gutter contract to the Western Paving, but are laying their bituminous pavement themselves upon the following streets:

Main street, from First avenue North to University avenue, three blocks.
Main street, from First avenue North to Second avenue North, one block.
First avenue South, from First street East to Fourth street East, five blocks.
First avenue North, from Fifth street East to Second street East, three blocks.
Second street East, from Main street to Third street West, five blocks.
First avenue North, from Main street to Third street West, five blocks.
First street West, from White avenue to First avenue North, three blocks.

Thus they yet to do, but expect to finish in a week, First avenue South, from Main street to Fourth street West.

This company has also a valuable contract on the South side.

National Paving Almost Laid. The National Paving and Contracting Company expect to finish their contract on the South Side in the fall. They have put in the curb and gutter of concrete and upon a concrete foundation they have laid a smooth asphalt pavement of the average standard width of 26 feet upon the following streets:

Third street West, from First avenue South to Second avenue North, three blocks.
Fourth street West, from First avenue South to Second avenue North, three blocks.
First avenue North, from Third street West to Main street, five blocks.
First street West, from White avenue to Main street, five blocks.

Thus paving has been completed on the above-mentioned streets, but the following streets the National Paving and Contracting Company have work yet to finish. The curb and gutter and concrete foundations are completed on Second avenue North from Third street West to Main street, five blocks.

Work has yet to be done on Fifth street East, from Main avenue South to Main street, five blocks.

to Main street, five blocks. This will be seen that the pavement already laid or to be laid by the National Paving and Contracting Company is forty-three blocks, and the work of paving construction is planned by the Hulse and Contracting Limited, a considerable blocks. Together they total eighty-five blocks—marked contrast to the fourteen blocks paved before this year. Of course, the blocks then and now are not all the same length. The long blocks extend east and west, while the shorter blocks are north and south. To the total number of paved streets will soon be one hundred blocks.

Citizens will soon know nothing of the mud-holes on the streets of the old time. The road up the hill from the low-level bridge has been much improved this year, and even after a heavy rain an automobile can climb with ease the hill where once four-horse teams rolled behind the tugging horse. The time will come when a roadway will loop around the low- and high-level bridges from one side to the other of the city of Edmonton.

AROUND THE CITY

LOCAL

In consequence of the change of the date of the holiday and sports arranged for the amalgamation cities for July 1st, it has been found necessary to postpone the parade to Saturday, July 13th. It has been decided to hold it on the 13th. The parade will take place at 10 o'clock, and a good program will be given.

The death of Harriet May, the four-year-old infant daughter of Mr. and Mrs. J. H. May, took place at 514 Main street, on Sunday, July 7th. The funeral took place today at 10 o'clock from the family residence to the Edmonton cemetery.

PERSONAL.

Harold W. Dean, assistant sporting editor of the Bulletin, leaves on Wednesday for California. He will stay for a few days in Los Angeles, and will return to Edmonton on Friday, July 13th. He will be in the city on Saturday for Mount Forest, Ont.

Chas. Murray, of Grapewine, has been a visitor from a vacation trip to Vancouver.

Mr. Thompson, of the Calgary News Telegram, was in the city on Saturday and proceeded to Saskatoon in the evening.

Board of Trade Meeting.

The regular monthly meeting of the Edmonton board of trade will be held in the board room, corner of First street and Saskatchewan avenue on Tuesday, July 10th. Lunch at King Edward hotel 1 o'clock. The meeting will open for business in the board room at 1:30 o'clock.

Sports at Stoney Plains.

Stoney Plains sports, which were postponed on July 1st, on account of rain, will be held now Thursday, July 12th. A good program has been arranged. The Edmonton Citizens band will furnish music. Special races have been secured on both the C.N.R. and C.P.R.

Contract Is Not Lost.

Despite certain alarming statements to the contrary, the contract between the city and the Bituminous Paving company has never been lost. It was seen by a Bulletin reporter yesterday in the contract-inventor's office. It is stored in the vaults with other valuable documents.

Death of Charles Robin.

On Friday the death occurred of Charles Robin, the deceased was a homesteader living some miles west of the city. He died on Thursday, July 5th, of heart failure. His son, who was in the city when he died, lives, but death overtook the sick man on the road. The funeral took place on Monday morning at nine o'clock from the R. C. cemetery. A wife and six children survive him.

Visits Natural Ice Strike.

Superintendent Brodie of the city's gas department paid a visit to the natural ice well at Tofield on Saturday. He was well as well as Mr. Brodie returning Sunday.

Mr. Brodie has no more any report yet on the result of his trip. It is understood that the city intends to proceed slowly, in the matter of obtaining a supply of natural gas until such time as the flow at Tofield has been thoroughly tested and found to be of value.

NEW GERMAN CLUB BUILDING.

Work has been started on the erection of the new German Club building at the corner of Morris street and Saskatchewan avenue. The building is to be three stories high and of frame construction. It will cost \$15,000. It is to be completed by September 1. Mr. B. is the contractor.

ORCHESTRAL SOCIETY CONCERT.

The popularity of the Sunday evening concert given by the Edmonton Orchestral Society at Garland theatre, was again demonstrated last evening by the large audience which applauded the efforts of the members.

Mr. Gavin Bruce, in particular, was well received, he being considered to be a good soloist. His rendering of "Swing Song" and "Alone" were especially worthy of mention, the latter being sung only a true son of Calabrian soil.

The overture "Pierrot and Pantomime" was particularly successful, the orchestra responding with the last movement displaying a technique and brilliancy which aroused the enthusiasm of all who heard it.

The treatment of the waltz "Bravo" showed a balance and control which made it heard quite as well as the others, was not less so large at times, but again, it was a delicate execution of smooth legato with white-poring voices all under perfect control.

These concerts maintain the reputation which the society has gained for artistic musical interpretation, and a high standard consistent with the professional aim of the society, and demonstrate the success of the season of Edmonton.

IN THE POLICE COURT.

Two young men were charged before Magistrate Byrne at the city police court yesterday with obtaining 150 by preference from Railway 3. They

YOUR GROCER HAS AUTHORITY

He knows he can sell Blue Ribbon Tea and feels sure he will satisfy his customer, for Blue Ribbon is known far and wide as excellent tea, but more than that, he is authorized to refund a customer's money if it does not please in every way.

sell. The assigned, Harold A. Ross and Hattie E. McEwen, were rounded up Friday.

Wm. B. McNeil paid \$15 and costs for the first offence. The second offence, Jas. Murray, Wm. Macdonald and A. Harper were fined \$15 and costs for each offence. T. C. Watso, for having driven an auto having one other number than his own was fined \$15 and costs.

Fines of \$1 and costs each were imposed on Chas. Pavey, Wm. McNaught, Tom Smith and R. Saville for having crossed Jumper with license between intersections. Clarence Chubb and J. J. Broderick each paid \$1 and costs for having driven their license on the left side of McNaught avenue.

RIVER RAPIDLY FLOODING.

In spite of the fact that there were many rainy days in June, according to the records of the meteorological office, more rain has fallen since the first of July than all last month, when the rainfall amounted to 2.92 inches. The first of July morning two and a half inches of rain has fallen in the city.

The immediate result of this is seen every day. The water in the city's nearly six feet since Sunday morning. It has gone up three feet and is still rising. Already the river is higher than it has been at any time this year and looks very angry as it rushes its way past the city. So far no particular damage has been reported.

TO the man with from \$1000 to \$3000 to invest, I have a proposition to offer which will yield much better return than Hudson's Bay Reserve. Let me give you particulars.

THE UNIVERSITY OF CHICAGO

TOFIELD

Spells Natural Gas, Coal, Brick Clay, Glass Sand;
ALL SURROUNDED WITH RICH, BLACK, LOAM SOIL

THESE SPELL A RAILROAD CENTRE
This Spells a Bucket Brigade

This Spells a Prosperous and Populous City

NATURAL GAS

TOFIELD has an inexhaustable supply. The streets are now lighted and its housewives are now cooking by natural gas.

Coal

Is actually being **Quarried**. The coal is being stripped of soil and clay to a depth of 8 feet by steam shovels and loaded on cars backed into pit. This means cheap coal for the prairie provinces. The Tofield Coal Co. is shipping large quantities and other companies are developing.

Brick and Tile Clay

Brick and Tile Clay of the finest quality is being stripped from the coal. Brick can be loaded on cars at Tofield for \$3.50 per thousand. Compare this with Edmonton brick at \$16.00 per thousand.

Glass Sand

of fine quality and unlimited quantity. This means a Glass factory for Tofield.

Rich Black Loam Soil

Means an army of farmers with their families in the surrounding country.

Railroad Centre

The Main Line of the G.T.P. and the junction of the Calgary and Lethbridge branch. Other railroads are projected.

Manufacturing Centre

Natural Gas, the cheap power, with the raw material at hand, and railroad facilities; what can prevent Tofield being the manufacturing city of the province? Locations for factories are offered by the city and manufacturers are already in the field. Do you grasp the situation? What does this mean to Tofield? What will it mean to you?

HILLCREST ADDITION

This beautiful addition lies on an eminence overlooking the town of TOFIELD and within a few blocks of the BUSINESS CENTRE. Every lot is high and dry. Lots within the corporate limits of TOFIELD.

TUESDAY, JULY 9th, 1912, the Opening Day of Sale. Price \$100 and up
Terms 1-3 cash, bal. 4, 8 and 12 months at 6 per cent.

This is an OPPORTUNITY of a LIFETIME. The possibilities of TOFIELD are unbounded. Why hesitate? Why wait? Don't say it might have been—**BUY NOW.** This means **YOU.**
